

Message from President, IAFM

Dear esteemed members,

It is with immense pleasure that I write this message to the fraternity of Forensic Medicine. The 46th Annual National Conference of Indian Academy of Forensic Medicine has just concluded. All the delegates along with the stalwarts of the field participated in it with great zeal & enthusiasm and this conglomeration of the fertile forensic brains resulted into a marvelous academic fiesta. This became possible because of our dedication & commitment to the subject of Forensic Medicine.

Indian Academy of Forensic Medicine is committed to uplift our subject and expand its horizons beyond any limits and all of us being part of this academy must thrive for excellence in the medico legal field. This will become possible by constant and committed efforts coupled with great interest by all of us during our day-to- day work in the field of Forensic Medicine. Dreaming bigger & materializing them with actual efforts towards our work will make our subject rise to newer heights. I cordially thank all the members for electing me as the President of IAFM and I congratulate all the other elected members of the new governing council. I assure you that with support from all of you, we will achieve greater goals in the best interest of our subject & academy.

Long live IAFM!!!

Dr. C B Jani

President (2025-2028),

Indian Academy of Forensic Medicine (IAFM)
